

AKASU
PALLIATIVE CARE
SOCIETY

is a group of volunteers from communities
in the Vegreville area.

Our mission statement:

*Our team supports individuals and their families
with understanding and compassionate care as they
transition through grief, loss and end of life.
We encourage strong community connections
ands support bereavement workshops and
volunteer training.*

We are concerned with the needs of people with
terminal illness, and those who have suffered losses,
their families, friends and caregivers.

AKASU PALLIATIVE CARE SOCIETY

Our trained volunteers can enter the hospital, long term care centers and work with home care clients under the direction of the Central Zone Palliative Care Team. These trained and approved volunteers have been screened, interviewed and signed an oath of confidentiality.

We all face loss whether it is the loss of a child, a spouse, our faith, our independence, a dear friend or a pet we mourn. We are all different and no two stories are the same.
